

PHYSICAL ACTIVITY READINESS QUESTIONNAIRE

If you are planning to take part in physical activity or an exercise class and you are new to exercise, start by answering the questions below. If you are between the ages of 15 and 69 the questionnaire will tell you if you should check with your doctor before you start. If you are over 69 years of age, and you are not used to being very active, check with your doctor.

ALL INFORMATION WILL BE TREATED CONFIDENTIALLY.

IF YOU HAVE ANSWERED YES TO ONE OR MORE QUESTIONS

Talk to your doctor by phone or in person before you start becoming more physically active. Tell the doctor about the questionnaire and which question you answered YES to.

You may be able to do any activity you want – as long as you build up slowly and gradually. Or you may need to restrict your activities to those that are safe for you. Talk with your doctor about the kinds of activity you wish to participate in and follow his/her advice.

IF YOU HAVE ANSWERED NO TO ALL QUESTIONS

You can be reasonably sure that you can start to become more physically active and take part in a suitable exercise programme. Remember to begin slowly and build up gradually.

PLEASE NOTE

If your health changes so that subsequently you answer YES to any of the above questions, inform your instructor, immediately. If you feel unwell because of a temporary illness such as cold or flu – delay becoming more active and wait until you are better.
